

CVICA, Faith P. and Charles L. Bybee Foundation Award 2015 Scholarships

The Colorado Valley Independent Cattleman Association announces that this year's fundraising efforts through the map program and Annual Tradeshow and Dinner were a success.

A donation to the CVICA Scholarship Program by the Faith P. and Charles L. Bybee Foundation has helped maintain the four \$2,000 scholarships offered by the chapter. This is the third consecutive year that the Foundation has contributed \$4,000 to the organization's Scholarship Program. CVICA will once again use the funds in conjunction with monies raised at the Annual Tradeshow and Dinner.

"The Foundation has joined with CVICA and the community in the Tri-County area. The fact that the Foundation also wishes – to Maintain Our Way of Life – speaks highly of their community participation. We welcome their participation," stated Chapter President Les Mallory.

The four students receiving scholarships this year are:

- Kelly Marie Boening of La Grange High School will be attending Texas A&M University to study Chemical Engineering to research and improve upon the harmful effects of chemicals on the environment.

- Ty Nolan Koether of La Grange High School will be attending Blinn Jr. College to study Finance to help support the family agribusiness.

- Joshua Alan Janda of La Grange High School will be attending Tarleton State University to study Agriculture Engineering to research water con-

servation and alternative energy.

- Sierra Srubar of La Grange High School will be attending Blinn Jr. College to study Business Management in order to start her own business in the future.

CVICA Scholarship Chairman Ron Denham stated, "It is gratifying that these students will have the opportunity to attend the University of their choice. With Agriculture becoming more important to generate the right foods for the future, these are the type of students that will help get us to our objective."

The CVICA represents Colorado, Fayette and Lee counties.
